- \* Allegedly, part of a syndicate whose aim is to promote corruption and falsifying information to other members of the GBC, and to members of ISKCON in general.
- \* Favors centralizing the management of all ISKCON temples under the "control" of a dictatorship GBC, against Srila Prabhupada's express desire. "GBC does not mean to "control" a temple." (SP Letter to TKG)
- \* Co-conspirator, along with other North American GBC member Romapada Swami, in creating a political GBC scandal regarding the ISKCON Phoenix temple, a fallout from which 25 innocent devotees are still being banned for more than two years! The temple congregation remains divided, over the cold-hearted attack of these two very self motivated individuals, posing as GBC members. (See *WDB website*)
- \* Does not believe in promoting love and trust, the two pillars on which ISKCON was founded. Trust is not found where their is dishonesty.
- \* Their activities have been reported to the FBI and IRS. They lied on their way in, and they are still undaunted in their positions of deception, while the innocent have to suffer! See *revealing and true information at....*

"A devotee should have intelligence to know who is deviating. Surrender by your intelligence, but don't surrender your intelligence."
